🏢 WORK EXPERIENCE

freelance web developer

Mern stack developer

02/2024 – present | Remote, India

- Tech Stack :- HTML5, Css, Javascript, Typescript, React.js, Redux, Node.js, Express, Mongodb, Chart.js, Material-ui, High-chart.js
- Developed a data visualization dashboard using React.js and Chart.js to provide users with intuitive insights into complex data sets from MongoDB.
- Utilized expertise in React.js to create reusable components and implemented custom data fetching logic with Node.js and Express.
- Designed RESTful API endpoints, implemented authentication and authorization using JSON Web Tokens (JWT), and optimized database queries for performance.
- Collaborated closely with cross-functional teams, including designers, product managers, and fellow developers, to deliver high-quality software solutions.
- Actively participated in code reviews and continuously sought opportunities for professional growth.

Mindhind Consulting group

Full Stack Engineer

11/2023 – 02/2024 | Remote, India

- Tech Stack :- HTML5, Css, Sass, tailwinds, Javascript, React.js, Redux, Node.js, Express, Mongodb, Chart.js, Material-ui, High-chart.js
- Developed a data visualization dashboard using React.js and Chart.js to provide users with intuitive insights into complex data sets from MongoDB.
- Utilized expertise in React.js to create reusable components and implemented custom data fetching logic with Node.js and Express.

Athamas Technology Pvt Ltd.

Front-end Developer

03/2023 – 10/2023 | Bengaluru, India

- Tech Stack:- HTML5, CSS, Sass, Material-Ui, React.js, Redux
- Played a pivotal role in developing user interfaces using HTML5, CSS, and Sass, ensuring high-quality, responsive designs that provided an exceptional user experience.
- Leveraged Material-UI, a popular React UI framework, to streamline the development process and create visually appealing and consistent UI components across projects.
- Implemented Redux for state management in complex applications, enabling efficient data flow and ensuring consistency across different parts of the application.
- Maintained comprehensive documentation of codebase and development processes, facilitating knowledge sharing among team members and ensuring smooth onboarding of new developers.
